

Study in United Kingdom

The United Kingdom has one of the most respected and well established higher education systems in the world. The home of the English language and the location of a multitude of famous universities, makes studying in the UK the first choice for large numbers of foreign students, there are over a quarter of a million foreign students studying in over 3000 UK educational institutions at any given time. Degree and Master Courses are more intensive, and therefore shorter, in the UK System, which makes them more affordable since the student has to spend less time abroad. As a country, the UK is liberal and multi cultural and its long history of welcoming international students means the infrastructure is there to provide the support when needed.

The UK has over ninety universities and more than fifty higher education colleges. This extensive system offers a vast range of courses, enabling you to specialize or find a course that exactly meets your requirements. Most of these courses lead to degrees, postgraduate qualification or MBAs. Over 250,000 people study in the UK every year, taking advantage of the extensive infrastructure that exists to help them get the most they can from the experience. The ethos in the UK's universities and colleges is truly international, with students from all over the world contributing to the academic and cultural cross section. British qualifications are a benchmark of educational quality, welcomed around the world. The analytical method of study develops an enquiring, independent and creative approach that equips students to cope with the demands of a globalized world economy as well as maximizing their own personal potential. Sci-

entists and institutions in the UK have won almost 100 Nobel prizes and many of the world's leaders, thinkers and artists graduated from the UK system of higher education.

Students with a full student visa are permitted to work in the UK on a casual basis for up to 20 hours a week during course time, and full time during vacations. This earning potential makes it much more affordable for students who need to fund part of their studies through work. Unemployment in the UK is at a historical low and as a result there are many employment possibilities for those wishing to work.

Although the UK is a relatively small country, it has enormous variety, which stems from its democracy, history and multi cultural nature. It comprises three separate countries, England, Scotland and Wales, plus the province of Northern Ireland. Each of these has individual and recognizable characteristics. People from all over the world have made their homes in the UK and brought with them their languages, music food and dress and contributed to a process that has created a diverse and open society. To this the diversity is added the contribu-

tion that 250,000 international students make. This cosmopolitan mix results in vibrant and fascinating towns and cities all over the country. Outside the cities you will find some of the greenest and most beautiful countryside in the world, a wonderful coastline, mountains, rivers and lakes and picturesque villages. There is a public transport system that will take you to every corner of the country. Popular culture from the UK is known and admired throughout the world and most foreign students will already be familiar with some of the music, film and television produced there, as well as its sporting fame in football, cricket, rugby and many other fields. The UK is a very safe and friendly place to live and an excellent starting point for further European travel during the holidays. People from the UK like to get together and enjoy themselves. Theatres, Concerts and art galleries can be found in all large towns and cities, big sports events take place every weekend, the huge selection of pubs are the focal point for many people to relax after work and the cuisine from every country in the world can be found in the numerous restaurants.
